

Scene 1: Depicts the globe and all the ways in which we can connect through technology and communication (transition pan out)

Scene 2: zoom out to see whole globe and all the social methods, and how the two characters cannot reach each other. In touch icon appears in top center circle to unite them.

Scene 3: Each circle will have an icon for a device, ipad, iphone, laptop and show them connecting with supporting text.

Scene 4: shows in touch on lap top being used, what the interface looks like.

Scene 5: Show's mobility as all people log in to intouch around the - globe and can connect easily

Scene 6: User using Intouch...show three key points in word bubbles why intouch is the best choice or what three problems it solves.

Scene 7: Zoom into computer screen showing the Tangoe interface and the little details.

Scene 8: Show contact check list on an iphone close up so people can see it.

Scene 9: talk about 4 benefits or resolutions of intouch and link them to the middle icon (which I still need, this chat bubble is a place holder)
